| JOB TITLE: | Senior / Principal Bridges Engineer |
| LOCATION: | Flexible across North and West Yorkshire (Hybrid/Office/Home Working). |
| TERMS: | Permanent/Full Time (40 Hours per Week) |
| SALARY/RATE: | £30,000 to £45,000+, dependent on experience and qualifications. |

As Align continues to grow we are looking for motivated and driven people with a passion for engineering and design to join us and be part of the team that drives the business forward.

We have the opportunity for an experienced Senior / Principal Bridge Engineer to join our busy Civil and Structures team. This is a newly created position due to the growth of the business and comes with the opportunity to make it your own: develop a team and build up business. If you're looking for a new challenge, the next step in your career or a role with long term potential to continue and develop this is the position for you.

You will be responsible for providing the design and delivery of a variety of Bridge projects across Yorkshire, the North West, the North East and Cumbria, ensuring they are completed on time and budget. You'll liaise with other departments in Align as well as outside the business including local authorities, being involved with projects from the early stages and offering detailed designs and calculations.

You will use your communication skills to explain technical information to non-specialists and you can problem solve and find practical solutions either on your own or working with others. You will also bring your analytical and decision making skills to this role.

The successful candidate will be rewarded with varied interesting projects across the North of England and an opportunity to develop their careers with a company that, as part of NYCC's traded arm, offers both the motivation and drive of the private sector with the public sector ethos of giving back to the community.

Qualifications and Skills

- A degree in an appropriate discipline and have significant knowledge of highway design issues from your previous experience in this sector.
- Knowledge of Design Manual for Roads and Bridges (DMRB) and Manual of Contract Documents for Highway Works (MCHW).
- Familiar with Euro codes and other construction related standards and codes/guidance, and experience of procurements of highway related works including the preparation of contract documents
- Good working knowledge of Health & safety in construction.
- Experience of using software packages including AutoCad drawing and Asset Management packages.
- Valid UK Driving Licence

About us

Align Property Partners are an award winning building design consultancy with a focus on quality of the work we do. We offer a comprehensive, multi-disciplined property service to both the public and private sector.

Established in 2017, we now have over 100 members of staff; From Architects to Engineers, Quantity Surveyors to Property Advisors all based across our 4 offices in the North of England

We have a strong work pipeline and our parent North Yorkshire County Council gives us unique access to a wide range of building projects across many sectors including Infrastructure, Housing, Education, Industrial and public buildings.

What we can offer you

We are pleased to offer a competitive salary from £30,000 to £45,000+ (dependent on experience and qualifications), pension scheme, 24 days holiday plus bank holidays, flexible working patterns and access to the company benefits scheme.

We actively encourage staff development, you will go on to manage, mentor and grow a team of Engineers ensuring their work is delivered to the highest standard.

This is an exciting opportunity to be part of Align Property Partners, leading a team that will shape the company, it's direction and growth and have a true, positive impact in North Yorkshire.
