

Project Architect

We are seeking to recruit a Chartered Architect for our busy team across the north of England. Location is flexible (Northallerton, North Yorkshire or North Leeds, West Yorkshire). You will be employed on a permanent full-time contract with flexible benefits.

Salary dependant on experience and qualifications.

You will be joining an Architectural team that work within the company's multi-discipline workforce including Building Surveyors, Quantity Surveyors, Highways, Civil & Structural and M&E Engineers. If you are an energetic, motivated and proactive individual seeking new challenges and want to be part of a successful team in an exciting environment then we would like to hear from you.

Projects are varied and include housing, education, public and community buildings

Essential Skills / Qualifications:

- Hold RIBA Part I, II & III qualifications plus ARB registration.
- Has a minimum 3 years post Part I architectural experience in a UK company

Duties and Responsibilities:

- Work as a member of the Architectural team within a multi-disciplinary organisation.
- Act as a Lead Consultant liaising with the client and co-ordinating the design team
- Produce Feasibility, Planning, Building Regulation & Construction information
- Produce schedules of work and specifications using NBS software.
- General understanding of JCT (Traditional / D&B) and NEC contracts
- Visit sites to attend meetings, carry out inspections and surveys when required.
- Carry out designer duties to meet current CDM regulation requirements.
- Attend client and contractor meetings as and when required.
- Complete work to defined business processes, standards and time frames.

Experience and Knowledge:

- Experience across all RIBA Plan of Work Stages on UK projects
- Works under minimal supervision and completes some tasks using own judgement, but overall supervision is required, work is reviewed for adequacy on completion.
- Experience of working closely with other disciplines to produce coordinated deliverables.
- Good IT & Presentation skills – Revit, AutoCad, Photoshop.
- A keen eye for detail and a careful and accurate approach.
